

# Congestion

2026-02-09

Table 1: Congestion and the QuickPay reform (SE)

|                         | Number of projects |                    | Total budget (millions) |                    | Number of tasks    |                    |
|-------------------------|--------------------|--------------------|-------------------------|--------------------|--------------------|--------------------|
|                         | I                  | II                 | III                     | IV                 | V                  | VI                 |
| Constant                | 5.03***<br>(0.38)  |                    | 4.73***<br>(0.52)       |                    | 1.73***<br>(0.04)  |                    |
| $Treat_i$               | -2.03***<br>(0.39) | -2.03***<br>(0.39) | -3.30***<br>(0.53)      | -3.30***<br>(0.53) | -0.23***<br>(0.04) | -0.23***<br>(0.04) |
| $Post_t$                | 0.94**<br>(0.41)   |                    | 2.46***<br>(0.29)       |                    | 0.17***<br>(0.02)  |                    |
| $Treat_i \times Post_t$ | -0.58<br>(0.41)    | -0.58<br>(0.41)    | -1.47***<br>(0.29)      | -1.48***<br>(0.29) | -0.04<br>(0.03)    | -0.04<br>(0.03)    |
| Time FE                 | No                 | Yes                | No                      | Yes                | No                 | Yes                |
| Observations            | 84,391             | 84,391             | 84,391                  | 84,391             | 84,391             | 84,391             |
| R <sup>2</sup>          | 0.005              | 0.005              | 0.02                    | 0.02               | 0.006              | 0.007              |

*Clustered (Contractor) standard-errors in parentheses*

*Signif. Codes: \*\*\*: 0.01, \*\*: 0.05, \*: 0.1*

Regressions at the contractor-quarter level.

Table 2: Congestion and the QuickPay reform (p-values)

|                         | Number of projects         |                            | Total budget (millions)    |                            | Number of tasks            |                            |
